## A-CCT

Digital Content Development for Integrating  
Cloud Technologies into Formal and Distance  
Vocational Education

<https://www.facebook.com/acctproject>

<https://www.acctproject.eu/>

## ABOUT US

A-CCT Project – Digital Content Development for Integrating Cloud Technologies into Formal and Distance Vocational Education – will strive to make positive contributions to employment by improving vocational education opportunities and to train qualified workforce, the target group of our project consists of students in vocational education, especially university students and individuals who want to have a profession.

The project is focusing on the need to train educators who are deemed necessary to train qualified individuals in the field of cloud computing determined by our needs analysis.

## MAIN OBJECTIVES

The main goal of the A-CCT project is to positively contribute to employment by improving vocational education opportunities and training a skilled workforce.

Improve the competences of educators and VET students;

Deal with barriers linked to education and training systems;

Adapt vocational education and training to labor market needs;

Contribute to innovation in vocational education and training

## PROJECT RESULTS

Educational Framework on Cloud Computing

Educational Framework on Cloud Computing

Online Education Platform for Cloud Technology
